OPIS

106.STH SILVER SERIES LOUDSPEAKERS

The system’s direct-radiating transducers include a 6.5" woofer with a large-sized voice coil that provides high reliability and excellent linearity. Its HF section utilizes a small-format compression driver with a Low-Q 110° x 70° waveguide. The 106.STH is installer-configurable for Lo-Z (8 ohm) or Hi-Z (70.7 / 100 volt) operation using separate input barrier strips. The 106.STH’s rugged thick-walled enclosure, specially-built components and its stainless steel rigging hardware ensures long life in direct weather applications. The 106.STH U-Bracket is comprised of structural steel with a zinc powder coating. Wall and pole mount pan/tilt brackets are available for added installation flexibility.

U-Bracket is included as standard
