SCHOEPS MIKROFON-SET

SCHOEPS now offers pairs of our best-selling ”Colette”-series microphones in sets. Each wooden case contains two complete microphones with selected, matched capsules, SG 20 stand adapters, B 5 D windscreens and in most cases, CMC 6 analog microphone amplifiers (the ”Digital” set contains CMD 2* digital microphone amplifiers instead).

OPIS

The part of each stand adapter that holds the microphone is made of soft plastic, while the base is metal. The foam windscreens have an inner construction which makes them considerably more effective than typical windscreens of their size, while their surface treatment lends them a ”high-class” appearance.

Eight sets are available:

Type	Capsules
Near-field omni	MK 2
Universal omni	MK 2H
Wide cardioid	MK 21
”Open cardioid”	MK 22
Cardioid	MK 4
Supercardioid	MK 41
Switchable-pattern	MK 5
Digital*	MK 4 and microphone amplifier CMD 2U

Digital* MK 4 and microphone amplifier CMD 2U The modular Colette series encompasses many more capsule and amplifier types than are offered in these sets.

Combinations of these other capsule and amplifiers, or the extensive range of accessories, are not available as sets, however.

* For use with digital microphone inputs that follow the AES 42 standard.
