OPIS

The WSC Piano PIA-3S set extends the WSC PIA-1 set for Double M/S. It adds two Lemo plugs for connection to the CCM 4 and CCM 8, and an in-line box which combines the three microphone cables internally and adapts them to an XLR-7 output.

The WSC Piano PIA-3S set consists of:

- the "Piano" basket-type windscreen
- a black cloth covering for indoor recording / mild wind

- selectable fur-like coverings for moderate / strong / extremely strong wind
- a swivel stand adapter with one axis of rotation, quickly adjustable, with a 3/8" inner winding
- a lightweight output cable with XLR-7 plug - elastic suspension for the microphones
- case
- 2 x Lemo/Binder adapter for the CCM 4/CCM 8 and the in-line combiner box

Available as accessory: The rain cover Pia Kelly protects the basket and the microphones against light rain.

The "Piano" is also available in a mono version (WSC PIA-1) and an M/S version (WSC PIA-2S).
